

# MEGALA E

## Aspiring Software Engineer & Data Science Enthusiast

Phone: +91-9629462897   Email: megalaelumalai022@gmail.com   Location: Tiruvannamalai, Tamil Nadu - 606755

### PROFESSIONAL SUMMARY

Motivated and detail-oriented B.Tech Artificial Intelligence and Data Science **Pre-Final Year Student** with a strong interest in software engineering, data analysis, and practical problem solving. Proficient in Python, SQL, and Data Science concepts, with practical development knowledge in Java and C++. Experienced in developing real-time Data Science projects during an online internship at Thiranex, transforming complex raw data into actionable decision insights.

### EDUCATION

#### B.Tech – Artificial Intelligence & Data Science

Sep 2025 – Present

SKP Engineering College, Tiruvannamalai | Pre-Final Year Student

- Gaining advanced knowledge in Artificial Intelligence, Machine Learning concepts, Data Science pipelines, and Software Engineering.
- Applying theoretical concepts to hands-on programming labs, algorithmic problem solving, and real-time project implementations.

### TECHNICAL SKILLS

**Programming Languages (Python, Java, C++):** Proficient in Python for data processing, scripting, and analytical modeling. Sound understanding of Object-Oriented Programming (OOPs), syntax, memory management, and modular coding in Java and C++.

**Data Science & Data Analytics:** Experienced in Exploratory Data Analysis (EDA), feature engineering, data cleaning, handling missing/null values, statistical data manipulation, and pattern visualization using Python libraries (Pandas, NumPy, Matplotlib).

**Database & SQL Querying:** Skilled in writing SQL queries for data extraction, table joins, data filtering, aggregations, database creation, schema modification, and data manipulation language (DML/DDDL) operations.

**Core Computer Science & Soft Skills:** Strong foundation in Data Structures & Algorithms, Object-Oriented Design, Analytical Thinking, Technical Presentation, Team Collaboration, and Problem-Solving capabilities.

### PROFESSIONAL EXPERIENCE & INTERNSHIP

#### Data Science Intern (Online)

Jul 2026 – Aug 2026

Thiranex

- **Real-Time Data Science Projects:** Executed end-to-end data pipelines involving raw dataset cleaning, preprocessing, feature scaling, exploratory data analysis (EDA), and graphical visualization on real-world industry datasets.
- **Data Processing & Insights:** Applied Python data science tools (Pandas, NumPy) to analyze complex data patterns and extract actionable business insights.
- **Documentation & Problem Solving:** Maintained comprehensive project documentation, workflow architecture, and structured execution plans.

### KEY PROJECTS

#### AI Shield Password Security

- **Objective & Implementation:** Developed a security evaluation platform to analyze organizational password hygiene and mitigate potential credential vulnerabilities.
- **Key Technical Features:** Implemented automated security rule checks and a dynamic risk-scoring algorithm to detect weak patterns, expired credentials, and duplicate password practices across user accounts.

#### Healthcare Data Analysis Projects

- **Objective & Implementation:** Conducted comprehensive statistical analysis on real-world healthcare datasets using Python and SQL to derive medical and operational insights.
- **Key Technical Features:** Performed data cleaning, outlier removal, trend detection (patient admission patterns, treatment efficacy), and built visual analytics summaries for data-driven decisions.

## Student Task and Assignment Management System

- **Objective & Implementation:** Built a web/software task management solution aimed at streamlining student academic workflow and task organization.
- **Key Technical Features:** Features assignment submission tracking, priority deadline sorting, status indicators, and automated remaining-time alerts to reduce missed deadlines.

## ACHIEVEMENTS

---

- **Best Design Award (24-Hour Hackathon):** Awarded the Best Design Award in a competitive 24-hour hackathon for delivering an exceptional prototype architecture and UI layout under tight deadlines.
- **College PPT Presentation Winner/Participant:** Earned accolades for delivering clear, impactful technical presentations on emerging Artificial Intelligence and Data Science topics.

## CERTIFICATIONS & TRAINING

---

- **HackerRank Certification:** Certified in Problem Solving, Python, Java, and C++ Programming Practice.
- **Cybernaut / Tech Trio Certification:** Completed hands-on technical training program certification.
- **Programming Certifications:** Verified competency in Python, Java, and C++ fundamentals and coding challenges.

## LANGUAGES

---

English (Professional), Tamil (Native)
